APPOINTMENT TO VISIT THE CENTER

We are located at above address. Please call and make an appointment to visit the center. We highly recommend scheduling an appointment time since we are busy during feeding time. We would like to give you the most time so you can make most out of your visit. As a parent, you are most welcome to visit center any time without an appointment.

DO WE HAVE A SPACE?

We have limited space and full most of the time. However, there is always a turnover. Lot of kids is on part-time and lot of parents has given 4 weeks notices. We can make space for you once you decide to go with us by talking to other parents.

WEBSITE:

It has lot of picks and other information

WHAT DO WE NEED TO GET THE ADMISION TO THE CENTER?

After you have decided that you want to go with us, you need to

1. Down load application from the website. <http://balmandircupertino.com/daycare.htm#forms>
2. It has contract as a first page. Please sign and return to us.
3. Pay tuition deposit-4 weeks of tuition, plus registration \$75 and part payment for the first two weeks of tuition.
4. Down load State mandated forms from the website. <http://balmandircupertino.com/daycare.htm#forms>
5. Please sign and return them. One of the forms requires information regarding immunization record for the child. And the other form requires emergency information regarding child and giving us the power of attorney to allow doctor to perform emergency treatments. Those forms have to be filled out and returned to us along with others.

PREMISES:

We have one of the best premises. We have newer facility on almost an acre lot in natural setting. It is an ideal setting for children's' growth and learning. We are very conveniently located only few minutes from interstate 280 and hwy 85 intersections.

RATIO:

We have 3 full time employees and the owner Mohini Dave at the center. At any give time, on average we have about 10-12 kids. This brings our ratio usually less than 4. And mostly it is between 2-3.

PRESCHOOL PROGRAM:

We have preschool programs. Most of kids are between ages 3 months and 4 years old. Most of graduating children end up going to Harker, Challenger, Apple seed and Stratford and other private schools. We have been told by parents that our children are well prepared and ahead in puzzles, letters, numbers and other skills of arts and crafts. Please refer to references. Our programs are less structured and designed to bring out individuality of each child. Also, our children are younger so programs are designed around the feeding and sleeping schedule of each child.

FEEDING:

We spend lot of time feeding the well balanced diet. We encourage self-feeding and spend required time feeding children. We put lot of emphasis on outdoor playtime to create natural hunger to make feeding time more pleasant.

POTTY TRAIN:

We potty train children. We follow up with parents to make sure that potty training does not become stress on the child.

HOW ARE WE DIFFERENT FROM OTHERS:

We have the same preschool programs, arts and craft activity along with playground activity. Our owner and staff have similar ECE units and training. The difference is in passion for kids. When comes to staff. Our staff has made choice to work here. They have been at the center for long time. As far as the children are concerned, we have made learning as part of game. We give close look at every child, look at his/her interest and encourage the learning and make learning as a pleasant experience. This requires staff time and thus we have good ratio. We also give emphasis on providing for good characters. Doing for others and selfless ness is the characteristic can be learned at this age. And we spend lot of time in teaching kids this values through pleasant experiences.

ABOUT MOHINI DAVE, OWNER:

Mohini received BS in child Psychology in LD Arts College and Gujarat University, Ahmedabad, INDIIA. She completed her postgraduate work in primary teachers training. She also completed her 23 units course work at De Anza College. Time to

time, she worked with many schools and daycare to develop effective preschool programs for preschools and learning centers in California and Texas. She started this daycare in 1999 at this location to fulfill her passion for loving children and providing right education and values that would last lifetime. She also works with disadvantaged children in India and third world countries.
